

RESEARCH EXPERIENCE	Postdoctoral fellow 2024-present The University of Texas at Austin McCombs School of Business
	Visiting scholar 2023 School of Mathematical and Statistical Sciences, Arizona State University Sponsor: Paul Richard Hahn
	Insper, São Paulo, Brazil 2022 Research Assistant Supervisors: Naércio Aquino Menezes Filho, Camila de Freitas Souza Campos
EDUCATION	PhD in Business Economics 2020-2024 Insper - Institute of Education and Research, São Paulo, Brazil Dissertation: A Constrained BART Model For Identifying Heterogeneous Treatment Effects In Regression Discontinuity Designs Advisor: Hedibert Freitas Lopes
	MSc in Applied Economics 2018-2020 Universidade de São Paulo, USP, São Paulo, Brazil Thesis: Estimation of the R&D Elasticity in Brazil: An Unobserved Common Factor Approach Advisor: Sérgio Kannebley Júnior
	BA in Economics 2013-2017 Universidade de Brasília, UnB, Brasília, Brazil Advisor: Andrea Felipe Cabello
PUBLICATIONS	1. A Bayesian Additive Regression Tree Model for Learning Conditional Average Treatment Effects in Regression Discontinuity Designs <i>with P. Richard Hahn and Hedibert F. Lopes</i> Accepted for publication, Observational Studies
	2. R&D Elasticity in Brazilian Manufacturing and Spillovers - An Unobserved Common Factors Approach <i>with Sergio Kannebley Jr.</i> Brazilian Journal of Applied Economics, 2024
PREPRINTS/ SUBMITTED	3. Modified BART for Learning Heterogeneous Effects in Regression Discontinuity Designs <i>with Meijia Wang, P. Richard Hahn and Hedibert F. Lopes</i>
WORK IN PROGRESS	4. Searching for Parallel Trends: Discovering Diff-in-Diff Estimators, <i>with Andrew Herren, Palak Jain, P. Richard Hahn, Jared Murray</i>

5. Statistical Aspects of SHAP: Functional ANOVA for Model Interpretation

with Andrew Herren, P. Richard Hahn

SEMINAR AND CONFERENCE PRESENTATIONS

Searching for parallel trends: Discovering diff-in-diff estimators (with Andrew Herren, Palak Jain, P. Richard Hahn, Jared Murray), European Seminar on Bayesian Econometrics (ESOB), August 2026

Learning Conditional Average Treatment Effects in Regression Discontinuity Designs using Bayesian Additive Regression Trees (with P. Richard Hahn, Hedibert F. Lopes), International Society for Bayesian Analysis (ISBA) World Meeting, July 2026

A Constrained BART Model for Identifying Heterogeneous Treatment Effects in regression discontinuity design (with Meijia Wang, P. Richard Hahn, Hedibert F. Lopes), LACEA-LAMES Annual Meeting, November 2024

A Modified BART Prior for Regression Discontinuity Designs (with Meijia Wang, P. Richard Hahn, Hedibert F. Lopes), NBER-NSF Seminar on Bayesian Inference in Econometrics and Statistics, August 2023

Bayesian Additive Regression Trees For Regression Discontinuity Designs (with Hedibert F. Lopes), 44th Meeting of the Brazilian Econometric Society, December 2022

TEACHING

Inspet, São Paulo, Brazil 2023

Teaching assistant of Bayesian Econometrics
Professor: Hedibert Freitas Lopes

Inspet, São Paulo, Brazil 2022

Teaching assistant of Bayesian Learning
Professor: Hedibert Freitas Lopes

Universidade de São Paulo, USP, São Paulo, Brazil 2019

Teaching assistant of Macroeconomics 1
Professor: Rudinei Toneto Júnior

Universidade de São Paulo, USP, São Paulo, Brazil 2019

Teaching assistant of Introduction to Macroeconomics
Professor: Rudinei Toneto Júnior

Universidade de Brasília, UnB, Brasília, Brasil 2015

Teaching assistant of Economic Formation of Brazil
Professor: Flávio Rabelo Versiani

TECHNICAL SKILLS

Advanced R, intermediate Stata, basic SQL, basic Python

LANGUAGE

Native Portuguese, fluent English
